2

Also asks that the login details for the website (username details) **and the details for managing the associated additional services** (excluding database services):

Should not be changed: by selecting this option, the username@aruba.it used to access the site and manage services will remain the same and the registered details for the username@aruba.it will not be updated, remaining therefore in the name of the current holder.

Should be replaced with the following: new username _____@aruba.it
By selecting this option, the current username@aruba.it used to access the site and manage additional services will be replaced by the one indicated above. This option is recommended if the management of the domain needs to be linked to an @aruba.it username in the name of a new registrant or third party.
This replacement enables management (including for any active third level domains) to be transferred from one person to another or between 2 usernames linked to the same person.
If the new username has not yet been created, it will need to be generated at signup.aruba.it as explained in the [relevant article](#).

Lastly, asks that the email address provided in the account holder's details

Should not be changed **Should be replaced with the following**

New email address _____ @ _____

For all TLDs except it, .eu, .es, .de, .co.uk, .org.uk, .us and ccTLD:

- An email will be sent to the new email address containing a link to verify the updated details. This verification must be performed within 15 days of receipt.
 - For 60 days following the update, the domain name will be subject to a transfer-lock, meaning that the domain cannot be transferred to another Registrar. If you wish, you can opt out of the domain transfer-lock.
- I wish to opt out of the 60-day domain transfer-lock following the changes I am making.**
