**Also that the login details for the website** [Login details] **and the details for managing the associated additional services:**  
[excluding database services]

**Should not be changed:** by selecting this option, the username@aruba.it used to access the site and manage services will remain the same and the registered details for the username@aruba.it will not be updated, remaining therefore in the name of the current holder.

**Should be replaced with the following: new username** \_\_\_\_\_@aruba.it  
By selecting this option, the current username@aruba.it used to access the site and manage additional services will be replaced by the one indicated above. This option is recommended if the management of the domain needs to be linked to an @aruba.it username in the name of a new registrant or third party.  
If the new username has not yet been created, it will need to be generated at [signup.aruba.it](https://signup.aruba.it) as explained in the article entitled [Registering at signup.aruba.it and creating login details](#).

**For all TLDs, except: it, .eu, .es, .de, .co.uk, .org.uk, .us and other ccTLDs:**

- Within 15 days following an update, an email will be sent to the new email address, with a link to verify the updated details.
- For 60 days following the update, the domain name will be subject to a transfer-lock, meaning that the domain cannot be transferred to another Registrar. If you wish, you can opt out of the domain transfer-lock.

**I wish to opt out of the 60-day domain transfer-lock following the changes I am making.**
