

REGISTRATION FORM FOR A .IT DOMAIN FOR ANYONE THAT IS NOT A NATURAL PERSON, SOLE TRADER OR FREELANCER

TO BE COMPLETED IN BLOCK CAPITALS by the account holder for the domain

Please complete all sections of the form. If any of the requested details are missing, the request may not be approved.

Sect. 1 – Sect. 2 Registration form for the domain name _____ .it

The organization _____ registering the domain name _____

hereinafter the registrant, residing at/with registered office at _____

(street/square, town, post code, province) _____

VAT number _____

Telephone _____ email (indicate the registrant's email address) _____

Legally represented by _____

Tax code _____

asks for the domain name _____ to be registered through the Registrar

Aruba-REG, and hereby agrees to undertake the responsibilities arising from the use and management of the domain name, and to promptly notify the Registrar, or alternatively the Registry, of any changes in its details in the manner set out in the ccTLD .it allocation Regulation and in the Guidelines (<http://www.nic.it>).

Sect. - 3. Declarations and assumption of responsibility

The party registering the above-mentioned domain name specifically declares, under their own responsibility:

- a) that they are based in one of the European Economic Area (EEA) countries, the Vatican State, the Republic of San Marino or the Swiss Confederation or the United Kingdom;
- b) that they understand and accept that the registration and management of a domain name are subject to the "ccTLD .it domain name allocation and management regulation" and to the "ccTLD .it dispute resolution regulation", including subsequent amendments;
- c) that they are entitled to use and/or have the requested domain name legally available thereto, and that the registration request will not cause harm to third-party rights;
- d) that they are aware and accept that, if an incorrect or false declaration is made in this request, the Registry will immediately revoke the domain name, and reserves the right to take any and all further legal action. In that event, revoking the domain name shall not give rise to compensation claims of any kind against the Registry;
- e) that they release the Registry from any liability arising from the allocation or use of the domain name by the applicant;
- f) that they accept Italian jurisdiction and the laws of the Italian Legal System.

Sect. 4 - Policy and obtaining consent for the purposes of processing the domain name registration details

Policy pursuant to Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016, on the protection of natural persons with regard to the processing of personal data (hereafter referred to as EU Reg. 2016/679) and Legislative Decree no. 196 of 30 June 2003, containing the "Personal Data Protection Code", supplemented by the amendments to Legislative Decree no. 101 of 10 August 2018, containing "Provisions for the adaptation of national legislation to the provisions of Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016, on the protection of natural persons with regard to the processing of personal data and on the free movement of such data, and repealing Directive 95/46/EC (General Data Protection Regulation)".

For the purposes of performing the activities referred to in this policy:

- The data controller is the National Research Council (CNR), Piazzale Aldo Moro 7, 00185, Rome. The Data Controller's contact for exercising your rights and finding out about how data is processed is the Director of the CNR's Institute of Informatics and Telematics (direttore@iit.cnr.it);
- The Data Processor is the Registrar who manages the contractual relationship with the Registrant from time to time; their identification details are contained in the contract in effect between the aforementioned Registrar and the Registrant, and as such are known to the data subject. A list of Data Processors is available on the Registry's website (<http://www.nic.it>). The Registrar will remain the Data Controller with regard to the contractual relationship entered into directly with the Registrant and not falling within the scope of this policy;
- The data protection officer - DPO - for Registro .it – IIT CNR, is rp@iit.cnr.it;
- The data protection officer - DPO - for the Registrar is dpo@staff.aruba.it.
- Mandatory information is information that is essential for the performance of the service requested constituting the Registrant's personal data.

The Registrant's personal details are collected by the Registrar who manages the contractual relationship with the Registrant from time to time by way of this form, for the purposes of registering and managing the domain name in the Assigned Name Database kept at the CNR's Institute of Informatics and Telematics, Registro.it.

In addition, the policy must contain the additional required information:

a) Purpose of collection

The Registrant's personal data is collected by the Registrar for the purposes of registering and managing the domain name in the assigned name database kept at the Institute of Informatics and Telematics, IIT - Registry. The information collected will be processed for the purposes of administrative and accounting management, the protection of rights, and other purposes connected with the registration, management, disputation, transfer and cancellation of the domain name(s), as well as to comply with legal obligations, regulations or EU legislation.

b) Methods of collecting and processing data.

Processing is carried out by our authorised personnel using automated instruments, in accordance with the regulations in place and with principles of fairness, legality and transparency and protection of your confidentiality and rights, for the time frame that is strictly necessary for use of the service. Our computer system is structured in such a way as to prevent the loss of data, its unlawful and incorrect use, and unauthorised access.

c) Consequences if not accepted.

The collection of personal data provided by you is necessary for delivery of the service offered. Non- or partial provision of the personal data required will mean that the service cannot be delivered. The Whois service does not allow any data relating to contacts for a domain name (registrant, admin and tech) to be viewed, where the domain name has been registered by a natural person, a sole trader or a freelancer and no consent has been given for the data to be published (consentForPublishing field with a "false" value). No consent is required for the disclosure and accessibility of personal data in cases where the data must be made public in order to comply with legal obligations. In accordance with article 40, paragraph 2, sub-section B) of decree law no. 201 of 6 December 2011, converted, with amendments, by law no. 214 of 22 December 2011, legal persons, entities or associations no longer have the status of data subjects, and therefore these categories of parties are no longer entitled to receive the policy and any request for consent provided for by EU Reg. 2016/679. Natural persons whose data is processed in connection with the activities linked to this contract will continue to be entitled, including where said data is provided for this purpose by parties no longer holding the status of data subjects, with the application of obligations with regard to information and any consent on the part of these parties.

d) Parties to whom data may be communicated.

Your data will be communicated to the IIT-Registry in order to fulfil the terms of the contract, and for the related administrative and accounting activities. The data communicated will only be that which is strictly essential for the provision of the requested service. Communication of this data is mandatory for the delivery of the services offered to you.

e) Data communication.

Your data may be disclosed to third parties for any ancillary activities or activities necessary for the fulfilment of the purposes referred to in point a) above. Your data may be disclosed to the PSRD [Dispute Resolution Service Provider] if a request is made for the completion of the reassignment procedure. Under no circumstances will your data be used or disclosed to third parties for marketing or direct sales activities. Such data may be made available to the Judicial Authorities and/or a Competent Authority, if requested by them.

f) Transfer of data to a third country outside the EU

To ensure the functionality and increased security of the domain name registration service, a distributed anycast service has been created by IIT-Registro .it. An anycast address is an IP address that can identify multiple hosts on the network. In this case, we applied the anycast concept to the DNS service. The DNS service allows names to be resolved into IP addresses and vice versa. The DNS anycast service makes it possible to have replicas (hosts with the same IP address) of one or more .it authoritative nameservers in different geographical areas worldwide, with different connectivity and network reachability. This makes the .it DNS service more resilient to DoS/DDoS attacks and, at the same time, greatly reduces service response times. In view of the above, therefore, your data will be transferred to third-party countries outside the EU where the Registro .it anycasts are present, subject to the application of adequate guarantees pursuant to articles: 44, 45 and 46 of EU Reg. 2016/679. The Registro .it anycast is currently present in: Toronto, Los Angeles, New York. Please note that the IIT- Registro .it anycast is always expanding. For information transparency, please note that any new anycast activated will be reported at the following url: <https://www.nic.it/it/progetti/servizio-anycast-del-registro-it>.

g) Time frame for the storage of personal data.

Your personal data will be retained not only for the period deemed useful for the provision of the services requested, or for the management of subsequent administrative and accounting activities, and for the protection of the rights of third parties, but also as the CNR's historical data. The Registrar, on the other hand, will keep the documentation pertaining to the registration form for 10 (ten) years from the date of termination of the contract with the Registrant and any other data concerning the maintenance and management of the domain name for 5 (five) years from the date of termination of the contract with the Registrant.

The data subject declares that they have read the Policy above. It should also be noted that in the event of failure to read the Policy, it will not be possible to proceed with the registration, assignment, or management of the domain name(s).

Acknowledgement

Sect. 5 - Consent for the processing of personal data for registration purposes

The data subject, having read the above Policy, hereby gives consent to the processing of the mandatory information for registration purposes, as set out in the Policy above.

YES accepts NO does not accept

Sect. 6 – Data accuracy

The Registrant declares:

- a) that they understand and accept that the Registrant has the responsibility to keep personal information accurate, complete and up-to-date, both with the Registrar and in the Registry (through the Registrar);
- b) that they understand and accept that the email address communicated to the Registry (through the Registrar) must be operational and must be kept updated;
- c) that they understand and accept that the email address communicated to the Registry (through the Registrar) is a fundamental point of contact for communications from Registro .it, Registrars and the PSRDs (the bodies responsible for the alternative resolution of disputes relating to the reassignment of a domain name). Such communications could substantially change the legal and technical status of the domain name and it is the responsibility of the assignee of the domain name to keep the email address up-to-date in order to view it.

Sect. 7 – Express acceptance of the following points

Signed to expressly indicate acceptance of the following points:

- a) that they understand and accept that the registration and management of a domain name are subject to the "ccTLD .it domain name assignment and management regulation" and to the "ccTLD .it dispute resolution regulation" and subsequent amendments;
- b) that they are aware and accept that, in the event of an erroneous or false declaration in this request, the Registry will immediately revoke the domain name, and reserves the right to take any further legal action. In that event, revoking the domain name shall not give rise to compensation claims of any kind against the Registry;
- c) that they release the Registry from any liability arising from the allocation or use of the domain name by the natural person, sole trader or freelancer who is the applicant;
- d) that they accept Italian jurisdiction and the laws of the Italian State.
